

SEAMLESS FLOORING SYSTEMS FOR FOOD & BEVERAGE MANUFACTURING

You need flooring that is thermal shock resistant, durable, and eliminates any crevices where moisture and bacteria can hide. Dur-A-Flex's simple to maintain seamless flooring systems offer superior chemical resistance to food acids and cleaning compounds, are easy to clean, and can handle constant foot/vehicle traffic. Having a floor that lasts, is easy to maintain, and is slip resistant allows you to focus on producing quality products and spend less time worrying about the facility.

Dur-A-Flex provides a variety of seamless resinous flooring options, a network of trained professional installers, and on-going support so you get a product that stands up to the toughest environments in your facility.

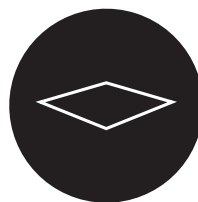

DURABLE

Seamless flooring that stands up to the wear of daily hard use from impacts, high traffic, and food acids, and cleaning compounds

LOW MAINTENANCE

Flooring solutions with a minimal maintenance regimen last longer and perform better over time than alternative tile or dairy brick options

SEAMLESS

Wall to wall coverage with seamless integration drainage and ramping

THERMAL SHOCK RESISTANT

Can withstand the temperature shifts, heating elements, steam, and wash-downs
